

SedumExtraPlugplants

Product

The SedumExtra plug plants are grown in a specially developed mineral substrate which ensures optimal attachment to the green roof substrate. These plugs are grown in trays of 40, 66, 96 or 104 number per tray, depending on variety.

We offer a broad palette of plants which allows for many different designs and appearances. We can make the selection ourselves or if preferred our customers may choose themselves to meet the exact requirements for the project.

Key Features

- Strong plug plant hardened in the open air
- Quick coverage
- Cost-effective installation
- Large selection of plants to choose from
- Available all year round

Technical specifications

Plugs per m ² :	16-24 number
Plugs per tray:	40, 66, 96 or 104 number depending on variety
Number of plugs per pallet:	max. 5000 number
Pallet size:	80 x 120 cm or 100 x 120 cm

We recommend the plants are watered after installation to ensure they become firmly attached to the substrate.
