

SedumExtraCuttings

Product

At SedumExtra we not only run our nursery of sedum vegetation blankets, plugs and trays but we also operate our own Mother plant nursery for clean and weed free cuttings. With the advantage of our own mother nursery we are able to supply any combination required – including the flexibility to produce 'customer made' vegetation blankets.

Key Features

- Very easy and quick to install by sowing the cuttings
- Low costs
- Best results are achieved by Spring and Autumn sowings
- Water after installation to avoid cuttings getting blown away

Technical specifications

Length of cuttings:	10-50mm (depending on variety)
